

# Saravanan V

## Professional summary

System Admin

## Experience

### System Administrator

ITC Infotech client Samsung R&D Bangalore, India, Bangalore

2021 - Now

As a System Administrator at ITC Infotech in India, I was responsible for maintaining and optimizing the company's IT infrastructure. This role required me to troubleshoot technical issues, manage servers, and implement security protocols to ensure smooth operations.

- Managed and maintained company's servers
- Implemented security protocols
- Resolved technical issues
- Optimized IT infrastructure

---

### Junior Software Developer

ATT system india, India, Chitradurga

2021 - 2021

As a Junior Software Developer at ATT system india, I had the opportunity to work on various projects and gain hands-on experience in software development. I collaborated with a team of developers to design and implement new features, debug code, and improve overall system performance. My time at ATT system india allowed me to enhance my skills in programming languages such as Java and Python while also learning about agile development methodologies.

- Developed new software features
- Debugged code and fixed technical issues
- Participated in agile development processes
- Improved system performance through code optimization

---

### System Administrator
